NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JANUARY 31, 2019 AND 2018
UNAUDITED – PREPARED BY MANAGEMENT
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

Bitterroot Resources Ltd. (the “Company”) is in the exploration stage and its principal business activity is the sourcing and exploration of resource properties.

The Company was incorporated on March 13, 1951 under the Laws of British Columbia. The Company’s head office address is Suite 206-B – 1571 Bellevue Avenue, West Vancouver, BC, V7V 1A6, Canada and its registered office address is Suite 900 – 900 West Hastings Street, Vancouver, BC, V6C 1E5, Canada. The Company is listed on the TSX Venture Exchange (“Exchange”) under the symbol “BTT”.

These condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends on its ability to raise adequate financing and to develop profitable operations.

Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, and other business and financial transactions which would assure continuation of the Company’s operations and exploration programs. In addition, management closely monitors commodity prices of precious metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company if favorable or adverse market conditions occur.

As the Company is in the exploration and evaluation stage, the Company has not identified a known body of commercial grade mineral on any of its properties. The ability of the Company to realize the costs it has incurred to date on these properties is dependent upon the Company identifying a commercial mineral body, to finance its development costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the property. To date, the Company has not earned any revenues. The Company expects to incur further losses in the development of its business. These circumstances comprise a material uncertainty which may cast substantial doubt on the Company’s ability to continue as a going concern.

The condensed consolidated interim financial statements of the Company are presented in Canadian dollars, which is the functional currency, unless otherwise indicated.

2. BASIS OF PREPARATION

Statement of compliance and basis of measurement

These unaudited condensed consolidated interim financial statements, including comparatives have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting. The policies applied in these condensed consolidated interim financial statements are based on IFRS issued and effective as of January 31, 2019

The condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The condensed consolidated interim financial statements were approved for issuance by the Board of Directors on March 28, 2019.

Use of estimates and judgments

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JANUARY 31, 2019 AND 2018

(Expressed in Canadian Dollars)

2. BASIS OF PREPARATION (cont'd)

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(i) Critical accounting estimates

Critical accounting estimates are estimates and assumptions made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and include, but are not limited to, the following:

Share-based payments

The fair value of stock options issued are subject to the limitation of the Black-Scholes option pricing model that incorporates market data and involves uncertainty in estimates used by management in the assumptions. Because the Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices, changes in subjective input assumptions can materially affect the fair value estimate.

Recovery of deferred tax assets

Judgment is required in determining whether deferred tax assets are recognized in the statement of financial position. Deferred tax assets, including those arising from unutilized tax losses, require management to assess the likelihood that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the date of the statement of financial position could be impacted.

Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future periods. The Company has not recorded any deferred tax assets.

Exploration and evaluation assets

Recorded costs of exploration and evaluation assets are not intended to reflect present or future values of these properties. The recorded costs are subject to measurement uncertainty and it is reasonably possible, based on existing knowledge, that change in future conditions could require a material change in the recognized amount.

(ii) Critical accounting judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the condensed consolidated interim financial statements include, but are not limited to, the following:

Determination of functional currency

In accordance with IAS 21 *The Effects of Changes in Foreign Exchange Rates*, management determined that the functional currency of the Company and its subsidiaries is the Canadian dollar.

3. SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited annual consolidated financial statements as at October 31, 2018. These unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended October 31, 2018.

New Accounting Standards Adopted during the period

IFRS 9, Financial Instruments – Classification and Measurement. IFRS 9 is a new standard on financial instruments that will replace IAS 39, Financial Instruments: Recognition and Measurement.

IFRS 9 addresses classification and measurement of financial assets and financial liabilities as well as de-recognition of financial instruments. IFRS 9 has two measurement categories for financial assets: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is at amortized cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. Otherwise it is at fair value through profit or loss. The Company adopted IFRS 9 on November 1, 2018 retrospectively and no differences of any significance have been noted in relation to the adoption of the standard.

IFRS 15 – Revenue from Contracts with Customers. IFRS 15 provides guidance on how and when revenue from contracts with customers is to be recognized, along with new disclosure requirements in order to provide financial statement users with more informative and relevant information. The Company adopted IFRS 15 on November 1, 2018 retrospectively and no differences of any significance have been noted in relation to the adoption of the standard.

Accounting pronouncements not yet adopted

On January 13, 2016, the IASB issued IFRS 16, Leases ("IFRS 16"), according to which, all leases will be on the statement of financial position, except those that meet the limited exception criteria. The standard is effective for annual periods beginning on or after January 1, 2019. The Company has not early adopted IFRS 16 and is currently evaluating the impact, if any, that this standard might have on its condensed consolidated interim financial statements.

4. RECEIVABLES

The Company's receivables arise from goods and services tax ("GST") receivable due from the Canadian taxation authorities.

Title to exploration and evaluation assets involves certain inherent risks due to difficulties of determining the validity of certain claims, as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to its exploration and evaluation assets and to the best of its knowledge, title to its exploration and evaluation assets are in good standing.

5. EXPLORATION AND EVALUATION ASSETS (cont'd)

Michigan Lands, Michigan, U.S.A.

Mineral Rights

The Company owns a 49.9% interest in certain mineral rights in the Upper Peninsula of Michigan, U.S.A. On some of the mineral rights the vendor retains a 2% net smelter return royalty (“NSR”) and the Joint Venture Partner Altius Minerals Corporation (“Altius”), which owns 50.1% of the interest, has the option to purchase one half of this NSR by paying \$1,000,000 U.S. on or before December 31, 2048. The Company’s remaining wholly-owned mineral rights are subject to a 2% NSR payable to a subsidiary of Altius.

Mineral Rights Leased from the State of Michigan

During the year ended October 31, 2016, the Company (49.9%) and Altius (50.1%) acquired State of Michigan metallic minerals leases covering 3,050.87 acres. A cash bond of US\$30,000 has been posted by a subsidiary of Altius.

During the period ended January 31, 2019, the Company sold its 49.9% interest in 30 acres of mineral rights on the Michigan Lands for \$82,758 (\$62,375 USD).

LM Property

During the year ended October 31, 2014, the Company’s Michigan subsidiary entered into an agreement whereby it purchased an arms-length company’s entire interest in a 40-acre minerals lease in Baraga County, Michigan, known as the LM Property. The lessors of the LM Property have granted the Company the option to reduce the current 3% net smelter returns royalty (NSR) to a 2% NSR by paying US\$1,000,000 at any time prior to December 31, 2064.

During to the year ended October 31, 2016, the Company and the lessors agreed to extend the term of the LM Property minerals lease to December 31, 2064. In consideration for extending the term, the annual advance royalty payment will payments will increase by \$10/acre/year for each subsequent year that the lease is in effect. The 2018 lease payment is US\$130/acre (paid). The LM Property is not subject to the Altius transaction described below.

Altius Transaction

During the year ended October 31, 2015, the Company and its wholly-owned subsidiaries entered into an agreement with Altius Minerals Corporation (ALS, TSX) and its wholly-owned subsidiaries, (“Altius”), whereby the parties closed a strategic transaction (the “Transaction”) under which Altius has the option to finance future mineral exploration on the Company’s Voyageur Lands and Copper Range Lands in the Upper Peninsula of Michigan (the “Properties”).

As part of the Transaction, Altius acquired a 50.1% interest in the Properties by funding \$600,000 of exploration expenditures on the Properties. Altius has the right to acquire an additional 19.9% of the Properties by completing \$2.5 million in exploration spending by September 29, 2021, plus the right to acquire an additional 10% of the Properties by completing exploration spending of a further \$5 million, or completing an NI 43-101 compliant pre-feasibility study on a mineral resource on the Properties, before September 29, 2025. The Company also granted to Altius a 2% net smelter returns (NSR) royalty on the Voyageur Lands (covering approximately 250 square miles of mineral rights) and assigned to Altius its right to repurchase a 1% NSR held by a third party on the Copper Range Lands.

Hackberry Silver Property, Arizona, U.S.A.

During the year ended October 31, 2017, the Company, through its US subsidiary, Trans Superior Resources, Inc., acquired an option (the “Option”) from the Hughes Family Trust (“Hughes”) to purchase a 100% interest in 12 patented lode mining claims comprising the core of the Hackberry property in Mohave County, Arizona. Under the terms of the Option, the Company made an initial payment of US\$50,000 (paid at the equivalent of \$65,652) and issued 1,500,000 common shares to Hughes (issued at a value of \$382,500 (Note 7)). A cash bond of US\$29,520 (\$38,506 CAD) has been posted by the Company to the Bureau of Land Management. During the year ended October 31, 2018, the Company terminated the option agreement due to sub-economic drill results.

5. EXPLORATION AND EVALUATION ASSETS (cont'd)

During the year ended October 31, 2017, the Company entered into an option agreement with Ely Gold Royalties Inc. (“Ely”, symbol ELY, TSX-V) and Ely’s wholly-owned subsidiary Nevada Select Royalty Inc. (“Nevada Select”) to acquire a 100% interest in the North Hackberry (Silver King) claims (the “Option”). Under the terms of the Option, the Company paid US\$20,000 (paid at the equivalent of \$25,162) and issue 200,000 common shares to Ely (issued at a value of \$43,000 (Note 7)). As of October 31, 2018, the Company and Ely have modified the terms of the original agreement. Under the revised terms, Trans Superior Resources, Inc. has acquired a 100% interest in the North Hackberry claims for no additional consideration. Nevada Select retains a 3% NSR on precious metals (defined as silver, gold and platinum), a 2% NSR on all other products sold from the property and a 0.5% NSR on any unpatented lands, excluding those previously subject to the Hughes Option, which the Company acquires within a 2.66-mile radius of the North Hackberry claims. As a result of the transaction with Ely and Nevada Select, the Company paid a finder’s fee to an arms-length party, consisting of 60,000 common shares of the Company (issued at a value of \$12,900 (Note 7)), followed by a second 60,000 common share payment on the first anniversary of Exchange acceptance (issued at a value of \$2,400 (Note 7)). During the year ended October 31, 2018, the Company wrote down exploration and evaluation costs of \$2,017,453 related to the property.

PCM Claims, Arizona, U.S.A.

During the year ended October 31, 2018, the Company, through its US subsidiary, Trans Superior Resources, Inc., entered into an option (the “Option”) agreement with a private individual to acquire 21 unpatented mining claims, known as PCM claims, in Mohave County, Arizona. The PCM claims are contiguous with the northern part of the Company’s wholly-owned Hackberry unpatented claims. Under the terms of the Option, the Company has made an initial payment of US\$50,000 (paid at the equivalent of \$64,801). To complete the exercise of the Option in the patented claims, the Company is required to pay, on or before first anniversary of the closing date, US\$50,000, and on or before the second anniversary of the closing date, US\$75,000 for total consideration of US\$175,000. The Company may prepay all or any portion of the purchase price at any time without bonus or penalty. The Company has the option to terminate this agreement at any time by providing notice. There are no other payments or underlying royalties owing to the vendor.

Newmont Mining Leases, U.S.A.

During the year ended October 31, 2018, the Company, through its US subsidiary, Trans Superior Resources, Inc., entered into an agreement with a subsidiary of Newmont Mining Corporation to lease 1,314 acres of mineral rights adjacent to PCM Claims. Under the terms of the lease, the Company has made an initial payment of US\$10,000 (paid at the equivalent of \$12,825). The Company is required to make a payment of US\$10,000 on or before the first anniversary of the effective date of the lease, US\$15,000 on or before the second through ninth anniversaries of the effective date and US\$20,000 on or before the tenth and each anniversary thereafter.

North Brenda Property, B.C., Canada

The Company owns a 100% interest in certain claims located on the North Brenda Property.

During the year ended October 31, 2017, the Company resumed work on the North Brenda Property and capitalized \$8,073 of exploration and evaluation costs. As at January 31, 2019, a reclamation deposit totalling \$9,000 was held by the Ministry of Energy and Mines Petroleum Resources through term deposits. During the year ended October 31, 2018, the Company wrote down exploration and evaluation costs of \$229,049 related to the property.

The Company operates in both Canada and the United States. The Company's reclamation deposits and exploration and evaluation assets are located in the Canada and the United States.

11. FINANCIAL INSTRUMENTS AND CAPITAL MANAGEMENT

Capital management

The Company manages its capital to safeguard the Company's ability to continue as a going concern, so that it can continue to provide adequate returns to shareholders and benefits to other stakeholders, and to have sufficient funds on hand for business opportunities as they arise.

The Company considers the items included in share capital as capital. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through short-term prospectuses and private placements or return capital to shareholders. As at January 31, 2019, the Company is not subject to externally imposed capital requirements.

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of this exposure. These risks include liquidity risk, credit risk, currency risk, interest rate risk and price risk. Where material, these risks are reviewed and monitored by the Board of Directors.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company is considered to be in the exploration stage. Thus, it is dependent on obtaining regular financings in order to continue its exploration programs. Despite previous success in acquiring these financings, there is no guarantee of obtaining future financings. The Company's cash consists of cash deposited in business accounts and redeemable guaranteed investment certificates held by high credit quality financial institutions. The Company is not invested in any asset backed commercial paper.

11. FINANCIAL INSTRUMENTS AND CAPITAL MANAGEMENT (cont'd)

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash, receivables and reclamation deposits. The Company limits exposure to credit risk by maintaining its cash and reclamation deposits with high-credit quality financial institutions. Deposits held with these institutions may exceed the amount of insurance provided on such deposits. The receivables balance consists of GST recoverable. There is ongoing review to evaluate the credit worthiness of these counterparties. The Company's maximum exposure to credit risk at the reporting date is the carrying value of cash, receivables and reclamation deposits.

Currency risk

The Company's operations are in Canada and the United States. The international nature of the Company's operations results in foreign exchange risk as transactions are denominated in a foreign currency. The operating results and the financial position of the Company are reported in Canadian dollars. The fluctuations of the operating currencies in relation to the Canadian dollar will, consequently, have an impact upon the reported results of the Company and may also affect the value of the Company's assets and liabilities. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time. A strengthening (weakening) of the Canadian dollar against the US dollar of 10% would not have a significant effect on net loss.

Interest rate risk

The Company's exposure to interest rate risk arises from the interest rate impact on its cash. The Company's practice has been to invest cash at floating rates of interest in order to maintain liquidity, while achieving a satisfactory return for shareholders. There is minimal risk that the Company would recognize any loss as a result of a decrease in the fair value of any guaranteed bank investment certificates included in cash as they are generally held with large financial institutions. The Company does not have any variable interest bearing debt.

Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors the commodity prices of precious metals and the stock market to determine the appropriate course of action to be taken by the Company.

Fair value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1* – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2* – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly;
- and
- Level 3* – Inputs that are not based on observable market data.

The fair value of cash is measured based on level 1 inputs of the fair value hierarchy. The estimated fair value of accounts payable and accrued liabilities due to related party (current) and loan payable to related party is equal to their carrying values due to the short-term nature of these instruments.

12. COMMITMENT

The Company has a commitment in respect of annual office rent of \$22,407, requiring monthly payments of \$1,867.
